

TaxWorksConversions2004

Conversion Process

1. As a precaution, backup your client data in your prior year software package.
2. ProSystemsFX client data **MUST** be calculated prior to converting. This can be done by going to ProSystemsFX Tax, Product Processing, and Calculate Returns.
3. Install the TaxWorks 2004 Demo (follow the installation instructions provided with the demo).
 - a. If you do not have a copy of the demo, call our Sales Team at (800) 230-2322.
4. After the installation is complete, open the TaxWorks 2004 Demo by clicking the *TaxWorks icon* located on your desktop.
5. If the Client Selection screen appears, click the *Close* button.
6. On the menu bar click "Installations", and then "Upgrade Systems".

7. Tag the following items using your mouse. Do this by clicking on the gray box to the left of the item:
 - a. System Operations
 - b. Asset Manager
 - c. Federal Universal (Shared Forms)
 - d. Federal 1040 Individual
8. Click the *Upgrade From Internet* button (Upgrades may take up to 1 hour).
9. Once the upgrade is complete, click the *Close* button.
10. Files that were upgraded will automatically decompress.
11. TaxWorks 2004 will automatically open.
12. If the Client Selection screen appears, click the *Close* button.

13. Click the *File* menu and select *Convert Clients*.
14. TaxWorks will automatically close.
15. The TaxWorks 2004 Conversion Utility will open.

16. Select "ProSystems" in the Convert From combo box.

17. Verify ProSystemsFX Data Path:

C:\wfx32\client\04I (Default ProSystemsFX)

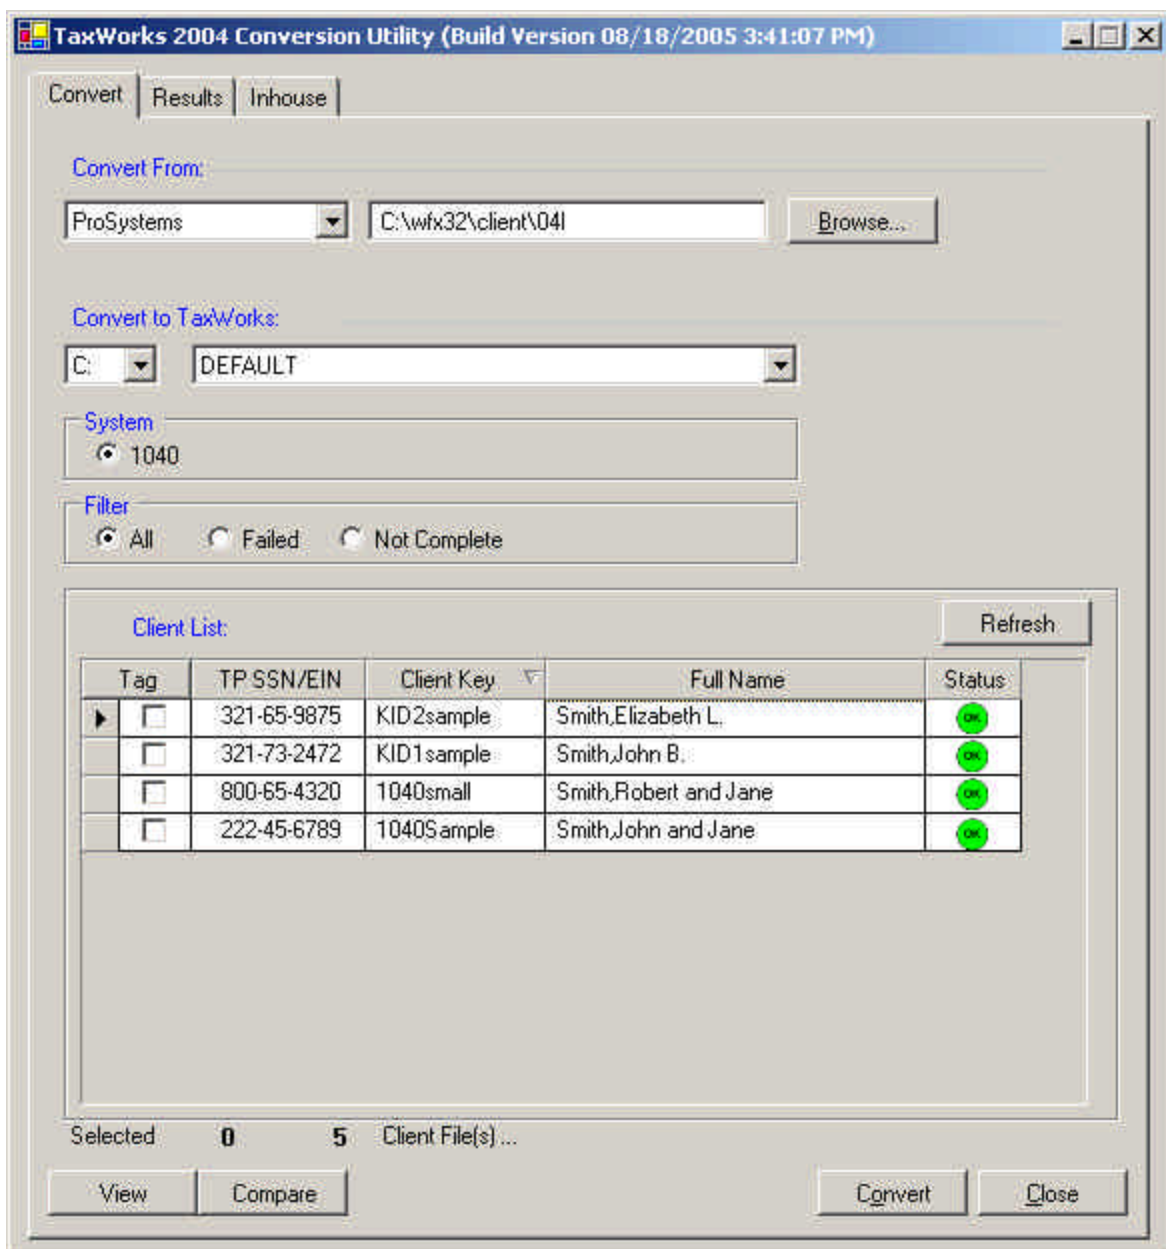

Note: Vendor Data Path will change with system selected at the bottom of the screen.

18. Select the TaxWorks Drive (default is C:)

19. Select the TaxWorks Folder (default is DEFAULT)

20. Tag the clients you want to convert. Do this by clicking the gray box to the left of the client.

21. Click the *Convert* button.

22. Once the conversion is complete, the status of each client will be displayed in the *Status* column.
23. To view a conversion report. Click the *Results* tab.
24. When you are done click the *Close* button
25. TaxWorks 2004 will automatically open.
26. If the Client Selection does not open automatically click, the *Clients* button located on the button bar.
27. Carefully review your converted data files to be sure your converted data is accurate. If you have items that did not convert, manually enter them in the TaxWorks program. Double click on the desired client file; or, highlight the desired client and click *Open* located in the left column.
28. Verify that client data stated in the manual converted correctly.
29. If you have any questions or suggestions concerning the conversion process please contact us at support@taxworks.com or call (800) 843-1139.
30. Occasionally we will upgrade items in the conversion program. We will post upgrade changes on the web. You may reconvert clients affected by these changes.
CAUTION: Entries made in TaxWorks to previously converted clients will be lost.

Disclaimer Statement

The goals of the TaxWorks data conversion are as follows:

1. To convert only the ProSystemsFX data (to TaxWorks format) that you will need to run the Update Clients, this transfers your 2004 TaxWorks data to 2005 TaxWorks.

The data conversion is NOT intended to do the following:

1. It is NOT intended to convert all of your data
2. It is NOT intended to allow you to generate a complete and accurate 2004 TaxWorks tax return!

Note: Do not process/prepare 2004 tax returns using only the converted information, as tax calculations may not be accurate. Some manual data entry may be required.

Asset Manager Conversions (All Systems)

- ✎ We recommend you print a copy of the TaxWorks Federal Depreciation Schedule and verify that the TaxWorks current depreciation amounts match those calculated by your prior software. Due to the many ways depreciation can be calculated, there may be slight differences that could require manual overrides in the TaxWorks Asset Manager.
- ✎ If you have overridden any depreciation calculations, please review them for accuracy.
- ✎ If you used 200% declining balance on any farm asset, you will need to override the current depreciation.
- ✎ If you had selected to delete the asset next year, the asset will not convert.
- ✎ Any asset carrying to Sch A points will be depreciated over the life of the asset using the Straight Line Method.
- ✎ Assets involved in a like-kind exchange may not convert properly, because of the difference in handling between the two systems. Please review them carefully to make sure the correct information is entered into the TaxWorks Asset Manager.
- ✎ Due to the limited amount of information being converted, if you have current year Section 179, the conversion may calculate a carryforward of these amounts. To remove the unused carryforward, open the TaxWorks 2004 Asset Manager, click the 179 button, and remove any unnecessary information.
- ✎ Vehicle expenses are not converted.
- ✎ Asset force options may not be converted correctly, please review them for accuracy.

Individual Conversions

- ✎ Preparer Information – Will not convert.
- ✎ State information - Will not convert.
- ✎ Items selected for deletion for next year - May not be taken into account. You may have to manually remove some items after updating to 2004 in TaxWorks.
- ✎ Detail statements – All amounts and descriptions may not convert.
- ✎ Non-Calculated Forms – Will not convert.
